About This Game

Uncover the secrets hiding in the Egyptian deserts and explore the worldwide mythological mysteries of the Sphinx.

Experience Puzzle-Solving like never before and investigate real Images, Documents, Videos, Websites, Accounts and more, all scattered throughout the Internet! Connect the dots by examining in-game evidence with real life clues and crack the mystery.

My goal is to create unique short Alternate Reality Game (ARG) experiences which explore unsolved mysteries, dark secrets, peculiar real life locations and some of the most interesting lost fragments of history and mythology.

A Clean Interface

Hint System

No DRM

The game does not utilize Steam's optional DRM layer or any other third-party DRM software.

Solve an Ancient Riddle

Γ 4 ρ 9

Same as with the Lost Cosmonauts ARG game before this, it is not really a game but a 10 question trivia. You are presented with a one line "riddle", then use your browser to google it and figure out what the answer is, to copy it into a text box. Repeat that 10 times and you're done. Only worth for achievement hunters.
